###ENG [PL](#)

The name of this task was everything we needed to know to solve it. Using [this site](#) and trying all the possible keys (21 was the correct one), we get the correct plaintext:

A-fence-is-a-structure-that-encloses-an-area,-SharifCTF{QmFzZTY0IGlzIGegZ2VuZXJpYyB0ZXJt},-typically-outdoors.

###PL version

Nazwa tego zadania wystarczyła do zgadnięcia, o jaki szyfr tu chodzi. Używając [tej strony](#) i próbując wszystkich możliwych kluczy (21 to ten prawdziwy), dostajemy poprawny tekst:

A-fence-is-a-structure-that-encloses-an-area,-SharifCTF{QmFzZTY0IGlzIGegZ2VuZXJpYyB0ZXJt},-typically-outdoors.
