README.md

#What the Hex (crypto, 15) #Solution Decode using hex and see what you get...

6236343a20615735305a584a755a58526659323975646d567963326c76626c3930623239736331397962324e72 We  
Can Decode This Hex To Strings :**Enter the hexadecimal text to decode, and then click "Convert!":**

6236343a20615735305a584a755a58526659323975646d567963326c76626c3930  
623239736331397962324e72

Convert!

**The decoded string:**

b64: aW50ZXJuZXRfY29udmVyc2lvd190b29sc19yb2Nr

b64: aW50ZXJuZXRfY29udmVyc2lvd190b29sc19yb2Nr  
b65 That's Mean This output in Base 64

We Go To Decrypt This Base64 :

## Result:

aW50ZXJuZXRfY29udmVyc2lvbl90b29sc19yb2Nr

## converts to:

internet\_conversion\_tools\_rock

Flag is : internet\_conversion\_tools\_rock

Regards,
