 [readme.md](#)

- We was given this image :

- It was embeded with text file by steghide software . You can found that software here [Steg hide](#)
- Using this command to extract text file :

```
Command Prompt - "C:\Users\Tuan Linh\Downloads\steghide-0.5.1-win32\steghide\steghide.exe" extract -sf "C:\Users\Tuan Linh\Desktop\velvet\ciceros.jpg"
C:\Users\Tuan Linh>"C:\Users\Tuan Linh\Downloads\steghide-0.5.1-win32\steghide\steghide.exe" extract -sf "C:\Users\Tuan Linh\Desktop\velvet\ciceros.jpg"
Enter passphrase:
```

- It asked for password. Back to the challenge, the question title is : Falkreath, after google search, we know it's about skyrim
- Also it has another hint "What's the music of life".
- After searching google with "Skyrim - What's the music of life" , i found that :

Q : "What is the music of life"

A : "silence"

- You can read more here [Read here](#)
- Try silence as password , we got :

```
Command Prompt
C:\Users\Tuan Linh>"C:\Users\Tuan Linh\Downloads\steghide-0.5.1-win32\steghide\steghide.exe" extract -sf "C:\Users\Tuan Linh\Desktop\velvet\ciceros.jpg"
Enter passphrase:
the file "steganopayload23623.txt" does already exist. overwrite ? (y/n) y
wrote extracted data to "steganopayload23623.txt".
C:\Users\Tuan Linh>
C:\Users\Tuan Linh>
```
