# IceCTF – All your Base are belong to us

AUGUST 16, 2016  /  MWEIKERT88  /  0 COMMENTS

**Stage 1: All your Base are belong to us**

**Description:** What a mess… we got a raw flag but now what do we do… flag.txt

Clicking on the flag.txt link brings us to the webpage:

I needed to convert the binary to its ASCII representation, so I Googled for a Binary to ASCII converter, and found: http://www.binaryhexconverter.com/binary-to-ascii-text-converter

Converting the binary to ASCII gives the flag:

**Binary Value**

```
01110010 01011111 01100010
01100001 01110011 01100101 01110011
01011111 01100001 01110010 01100101
01011111 01101101 01101001
01101110 01100101 01111101
```

**Ascii Text Value**

```
IceCTF{al1_my_bases_are_yours_and_all_y
0ur_bases_are_mine}
```

Convert

## Flag = IceCTF{al1_my_bases_are_yours_and_all_y0ur_bases_are_mine}
